

Falling For You

Leeland; Falling For You

A B E B A

A childlike love I had

B E

When we first began

B A B E B A

We ran and I fell behind

B E

I've been stuck here all this time

B

You waited like a lover

A E

Who couldn't let go of his bride

B

I turned my back away from You

A E

Didn't shed a tear or cry

E A

But I'm falling for You now

C#m B

I'm coming back to the place where we parted

E A

It's for real this time

C#m B

So I'll be here waiting where we started

My feet were bruised

I tried but I couldn't fill Your shoes

I went my way

I bought the lie that I was all grown up

Didn't need You in my life

The winter left me cold and frozen

Looking for the truth

But searching for the sun

I found the place where I met You

A

It feels so good*d*

E

To be in Your arms

A

You never left me*e*

E

I just chose to stay behind*d*

A

I want to thank You for Your love*e*

E

That gives me freedom

A

B

To run back, to come back
