

Let It Out Now

Leeland; Let It Out Now

D C G C

It's like you got to walk like him
Got to talk like her
Got to be like th*em*
Everybody knows you follow the crow*d*
Or get singled out
But God says who you ar*e*
Not the world or movie stars
Don't you know He holds the answers in His hands?

A

We're stuck in a syst*em*

C

Is there anybody different?

G

Is anybody listening?

C

Is anybody listening?

D

G

Everyone has their own sound*d*

Em

C

Let it out now, let it out now

D

G

There's nothing wrong with living loud*d*

Em

C

Let it out now, let it out now

I'm drawing the line between

Being them or being me*e*

I'm not ash*amed*

To call myself one of Yours, Lord*d*

But it's a narrow path

I've got to break from the pack

No turning back

No turning back

A *G* *Em*
Yes, God's looking for a people

Bm
With a passion in their hearts
We're God's children

G
We need to shine bright

C
We need to shine bright
